

90 Years of **ESSIAC**® History

ESSIAC® is a proprietary herbal formula that has been in use since 1922. This formula was given to Nurse Rene M. Caisse by a Canadian Ojibwa Indian. Nurse Caisse named her formula "**ESSIAC**", which is her last name spelled backwards.

From 1934 to 1942, Nurse Rene Caisse ran a clinic in Bracebridge, Ontario, Canada and continued to give **ESSIAC**® until the late 1970's. Although she refused payments for her services, she accepted donations to help support her clinic.

Today, Rene Caisse's **ESSIAC**® and **ESSIAC**® for Pets formulas are made by Essiac Canada International. **ESSIAC**® for Pets is made only in Canada and is exported worldwide.

Bronze sculptures of Rene Caisse have been dedicated in her memory in Bracebridge and at the Canadian College of Naturopathic Medicine in Toronto.

relies on you
to stay healthy!*

Your Pet's Immune System

The immune system of a dog or cat is as complex as the human immune system. Its purpose is to help keep them healthy. Daily stresses, lifestyle and dietary habits are factors that can impact the immune system.

Made from Rene Caisse's original herbal formula, **ESSIAC**® for Pets helps support the immune system and can easily be added to your pet's diet.

Giving ESSIAC[®] to Your Pet

The **ESSIAC[®] for Pets** capsule formula was made with your pet in mind. The capsules are easy and convenient to take and can be given with a small amount of food or juice to help facilitate consumption. **ESSIAC[®] for Pets** is most effective when taken 1 hour before or after meals.

The following chart will give you the suggested daily amounts for your cat or dog in relation to their weight.

WEIGHT	QUANTITY
Up to 20 lbs.	½ capsule twice daily
21 to 50 lbs.	1 capsule twice daily
Over 50 lbs.	2 capsules twice daily

CAUTION: For prolonged use consult your veterinarian.

The ESSIAC[®] for Pets Formula

Burdock Root (Arctium Lappa)

Used traditionally to help reduce mucus, maintain a healthy gastrointestinal tract, stimulate a healthy immune response, serve as a diuretic for waste retention, and sweat out toxins through the skin.

Slippery Elm Bark (Ulmus Fulva)

Contains large amounts of tannins and mucilages which are believed to help dissolve mucus deposits in tissue, glands, and nerve channels. The inner bark is rich in calcium, magnesium, and vitamins (A,B,C,K).

Sheep Sorrel Leaves (Rumex Acetosella)

Used traditionally to help maintain healthy kidneys and urinary functions. It is rich in vitamins and trace minerals and is thought to nourish the glandular system.

Indian Rhubarb Root (Rheum Officinale)

Used traditionally in small amounts, this herb acts as a gentle laxative and helps purge the liver of toxic buildup and waste.
